BEAUTIFUL GLASS DOORS

Frameless Glass Pocket Doors | Frameless Glass Hinged Doors

More than just a door...

PUPA DESIGN SANDLASTED ONTO SATIN BASE

At ECLISSE we are passionate about design and innovation. We are constantly looking for ways to meet our customers' needs by developing our product range and introducing new innovative door systems. It is this desire to provide our customers with high quality, beautiful products that inspired us to create our Frameless Glass Pocket Door Collection.

KARIS, based in the Veneto region of Italy, have been producing decorative glass products for over 25 years. The glass for the frameless glass doors is produced using a modern production technique called the float process, which results in a perfectly smooth surface, which is then tempered for maximum safety.

The process KARIS use for adding design, decoration and embellishment onto the glass is a highly skilled process performed by hand and not a product of mass production. The result is more than just a door; it is a work of art.

A combination of function and artistry

Beautifully combining function and artistry, our GLASS DOOR COLLECTION marries the reliability and innovative design of ECLISSE Pocket Door Systems and ECLISSE flush hinged doorframes with KARIS glass doors. A perfect solution for any room.

VERSATILE AND STYLISH

Glass is incredibly versatile; it can be fashioned to create a design statement, whilst at the same time dividing and creating different spaces, and maximising natural light in an interior.

PLAIN SATIN

SIMPLE AND ELEGANT

A Satin Glass Pocket Door is perfect to make the space of an en-suite bathroom feel bigger without moving the walls and to make the space brighter without adding a sky-light.

For a family bathroom the glass door can be sandblasted both sides for more privacy.

Designing your glass pocket door

STEP 1: Choose your frameless glass door style

ECLISSE CLASSIC
Requires finishing with decorative architrave

ECLISSE SYNTESIS® FLUSH
Architrave free

STEP 2: Choose your door configuration

Single Pocket Door
10 mm or 8 mm glass

Double Pocket Door
10 mm or 8 mm glass

Single Hinged Syntesis® Flush
Satin 8 mm glass only

OUR 10 mm GLASS POCKET DOOR RANGE:

Sizes: A vast range of sizes are available and bespoke sizes are possible also.

Styles: Can be coupled with a Classic Pocket Door frame or a Syntesis® Flush Pocket Door frame.

Designs: The choice of possible patterns, designs and colours for the 10 mm glass door is almost limitless!

Handles: There are a number of standard handles to choose from included in the price. Alternatively we also have array of other handles and locks available to purchase for use with the 10 mm range of glass doors.

OUR 8 mm GLASS POCKET DOOR RANGE:

Designs and Sizes: Plain satin glass door with nominal door panel size of either 762x1981 or 826x2040 mm; Striped satin glass door with nominal door panel size of 762x1981.

Styles: Available as a single or double Classic Glass Pocket Door System, so requires finishing with decorative architrave.

Other features: Comes complete with a standard round stainless steel handle.

WHAT IS SATIN GLASS?

10 CM (4 INCHES)
From the glass

30 CM (12 INCHES)
From the glass

100 CM (40 INCHES)
From the glass

Satin glass allows light through but obscures what you can see. Satin glass is clear glass that is acid etched and polished for an easy-clean finish. The satin finish means that the door panel lets in light but obscures what you can see.

STEP 4: Choose your design - Keep it plain and skip to step 5 or choose from a wide variety of designs

SANDBLASTED PATTERNS

COLOURS / MIRRORED

HAND PAINTED

Designing your glass pocket door

If you would like to add to your base glass by incorporating a design read on. If not skip to step 5.

SANDBLASTING - Onto transparent, satin or transparent smoked base

*TRAMONTO, QUADRELLO, BRIO and CORSIE are sandblasted designs with the addition of colourful Murano tiles.

COLOURS - solid and transparent
