

## Performance Certificate

EN12150

**EN12150 Sodium-Calcium Silicate safety glass, thermically tempered.**

**Description : Clear/Satin CH.SA 8 MM FL Tempered**

<b>Characteristics</b>	<b>Value</b>
Class	1C2
FS	NPD
TL	NPD
UG	5.6

**Testing Laboratory**

Stazione sperimentale del vetro  
Via Briati 10  
30141 Murano (Venezia)

The U coefficient (previously K value) is calculated according to EN673. The emission value is in accordance with EN673 and EN12898. U value tolerance + or - 0.1 W7m2K. Any estimate of acoustic value would be + or - 2db.
